About P.S. the Children:

With over 20 years of experience, P.S The Children have advocated, educated and provided case management support as well as therapy to those sexually abused and exploited. Working with the United Nations Convention on the Rights of the Child (CRC), they focus on implementing programmes and services that promote and protect the rights of children. The Ministry of Education have also adopted their personal safety components into the pre-school curriculum.

About The Speakers:

Hui Han

- Bachelor in Psychology and Masters in Clinical Counseling
- Case worker with P.S The Children, directly working with survivors of child sexual abuse and former family counsellor in Australia

- Bachelor in Psychology and Masters in Child Psychology
- A trainer with P.S. the Children, conducting talks and workshops on the awareness and prevention of child sexual abuse

Alex Lee

About #ChildrenToo

KinderJoy always takes necessary measures to protect our children's well-being and creating Child Sexual Abuse Awareness is no stranger to us. We have engaged with the #ChildrenToo as a specific means of creating an awareness on child sexual abuse, derived from the #MeToo movement founded by activist Tarana Burke, who initiated this movement to help survivors of sexual assault. As an early childhood education center, KinderJoy believes that through this movement we may grasp the public's attention to understand how important it is to be aware in an era where children are often subjected to such crimes. This is #ChildrenToo.
